

Customer Journey Map

Understanding Users, Improving Experiences

What is a Customer Journey Map?

A **Customer Journey Map (CJM)** is a visual representation of a user's experience with a product or service, highlighting **touchpoints, emotions, and pain points** throughout the journey.

Why It's Important:

- Helps designers identify user pain points.
- Enhances user experience by understanding needs & expectations.
- Aligns business goals with user satisfaction.

Key Components of a Customer Journey Map

- **User Persona:** Who is the customer? (Demographics, goals, pain points)
- **Phases/Stages:** Steps in the user journey (Awareness, Consideration, Decision, etc.)
- **User Actions:** What the user does at each stage.
- **Touchpoints:** Where interactions happen (Website, App, Email, etc.)
- **Pain Points & Emotions:** Frustrations & motivations at each stage.
- **Opportunities:** Areas for improvement in the user experience.

Steps to Create a Customer Journey Map

✓ Step 1: Define the Goal

What experience are you mapping? (e.g., purchasing a product, signing up for a service)

✓ Step 2: Identify User Persona

Understand the target audience's behaviors, needs & expectations.

✓ Step 3: Outline Touchpoints

List all the interactions users have with your product/service.

Steps to Create a Customer Journey Map

✓ Step 4: Map Out the Emotions & Pain Points

Identify frustrations, motivations & moments of delight.

✓ Step 5: Find Opportunities for Improvement

Optimize weak touchpoints & enhance user experience.

Example of a Customer Journey Map

Scenario: A customer purchasing a product from an **e-commerce app**

Stage	User Action	Touchpoints	Pain Points	Opportunities
Awareness	Searches for products online	Google, Social Media	Too many choices, hard to decide	Use targeted ads & product recommendations
Consideration	Compares prices, reads reviews	Website, App, Reviews	Fake reviews, unclear product details	Verified reviews, high-quality product images
Decision	Adds to cart, proceeds to checkout	App, Website	Hidden costs, complex checkout process	Transparent pricing, one-click checkout
Purchase	Completes payment & receives confirmation	Payment Gateway, Email	Delayed confirmation email	Instant order confirmation & tracking
Post-Purchase	Tracks order, receives package	Order Tracking, Delivery	Slow delivery, poor packaging	Real-time tracking & better packaging
Loyalty	Leaves review, refers others	App, Referral Program	No reward for loyalty	Offer discounts & referral bonuses
